PROFESSIONAL SUMMARY

Senior Flutter Developer with **4+ years** of hands-on experience building, optimizing, and deploying high-performance cross-platform mobile applications for Android and iOS, alongside enterprise Flutter Web platforms. Deep expertise in Flutter, Dart, GetX, Clean Architecture, REST APIs with Dio, Firebase, and real-time bidirectional communication via **AWS IoT Core (MQTT over WebSockets)**. Proven track record leading dual-sided on-demand product engineering from scratch, managing **50+ production releases**, designing zero-downtime update engines, and authoring automated test suites (Unit, Widget, Integration) ensuring zero regression.

TECHNICAL COMPETENCIES

Languages & Frameworks:	**Flutter (Mobile iOS & Android, Flutter Web)**, **Dart**, FlutterFlow, Java, Kotlin, Python, HTML5, CSS3, JavaScript
Architecture & State:	**Clean Architecture**, **Modular Design**, **GetX State Management**, BLoC Pattern, Repository Pattern, Dependency Injection
API & Real-Time Backend:	**AWS IoT Core (MQTT over WebSockets)**, Firebase Cloud Messaging (FCM), REST APIs, **Dio**, Single-Flight Lock, WebSocket Lifecycle
Cloud & Database:	Firebase (Auth, Firestore, Crashlytics, Remote Config, Analytics, Performance), **Hive DB**, Flutter Secure Storage, SharedPreferences, SQLite
Testing & Quality:	**Mocktail**, Unit Testing, Widget Testing, Flutter Integration Test, Debugging, DevTools Profiling, Code Reviews
Tooling & Deployment:	Git, GitHub Actions, Google Play Console, Apple App Store Connect, Android Studio, Xcode, VS Code, Postman
Specialized Integrations:	Google Places API, Cloudflare Turnstile, In-App Review, In-App Purchases (StoreKit / RevenueCat), CustomPainter, flutter_math_fork

PROFESSIONAL EXPERIENCE (JAN 2022 – PRESENT)

Logix Built Solutions Limited — Senior Software Engineer | Flutter Developer

May 2025 – Present | Surat, India

- **Architecture & Real-Time Engine:** Architected dual-sided on-demand mobile applications and web QA platforms from scratch using Flutter, Dart, and GetX under Clean Modular Architecture, supporting **50+ production releases** on Android & iOS. Built low-latency dispatch via **AWS IoT Core (MQTT over WebSockets)** and FCM with custom sound/vibration alerts.
- **Resilient Network Layer:** Engineered Dio HTTP client with exponential backoff retries and a thread-safe **Single-Flight Lock (Completer)** that completely resolved token-refresh race conditions in concurrent API requests.
- **Web QA Automation Suite:** Engineered a browser-based dataset validation suite in Flutter Web with a 20-rule AST parser, auto-remediating malformed HTML, broken tables/lists, and encoding artifacts for multi-thousand question exam banks.
- **Release & Zero-Downtime Engine:** Implemented AppLinks deep-linking with auth-gated intent preservation, Google Play In-App Updates (Immediate & Flexible), and Firebase Remote Config with automated local storage migrations on version bumps.
- **Automated Testing:** Authored Unit, Widget, and Integration test suites using **Mocktail** and Flutter Integration Test, achieving high coverage and zero production regressions.

DinJan Infotech Pvt. Ltd. — Flutter Developer

June 2024 – April 2025 | Surat, India

- Designed and implemented responsive user interfaces for Android and iOS using Flutter and FlutterFlow, authoring custom interactive widgets.
- Integrated RESTful APIs, managed app state via GetX, optimized offline caching, and resolved complex memory/rendering bottlenecks.
- Mentored junior developers on Dart idioms, clean widget tree decomposition, and Git collaboration workflows.

White Orange Software — Mobile App Developer (June 2022 – May 2024) & Intern (Jan 2022 – May 2022)

Jan 2022 – May 2024 | Surat, India

- Developed, maintained, and shipped cross-platform applications for Android and iOS utilizing Flutter, Dart, REST APIs, and Firebase.
- Built an enterprise Android application (Java/Kotlin) for HR workforce management, salary records, attendance, and real-time messaging.
- Conducted performance profiling, memory leak prevention, and automated testing across diverse physical mobile devices.

COMPLETE PROJECT EXPERIENCE (JAN 2022 – PRESENT)

LOGIX BUILT SOLUTIONS LIMITED PROJECTS — May 2025 – Present

1. Pandit Near Me — Dual-Sided On-Demand Marketplace (Android & iOS | 50+ Releases) [Google Play Store] • [Apple App Store]

Tech Stack: Flutter, Dart, GetX, Dio, AWS IoT Core (MQTT), FCM, Google Places API, CustomPainter, Hive, Mocktail

- Architected dual-sided app from scratch for users, Pandits, and Astrologers with dynamic puja bookings, wallet discounts, multilingual support (EN, HI, GU), and Aadhaar KYC document uploads with verification status.
- Engineered low-latency dispatch via **AWS IoT Core (MQTT over signed WebSockets)** and FCM with custom sound/vibration alerts, AppLinks deep-linking with auth-gated intent preservation, and Google Play In-App Updates.
- Built Kundali and Kundali Matching engine with dynamic planetary data, custom horoscope charts using **CustomPainter**, Gun Milan results, saved records, and PDF download integration.
- Integrated Google Places API autocomplete, location-aware Panchang, Muhurat, Choghadiya, and festival content modules.

2. PMP CSV Validator & Preview Tool — Dataset QA & Mobile Simulation Suite (Flutter Web) Lead Flutter Web Engineer

Tech Stack: Flutter Web, Dart, Python, CSV Parsing, AST Parser Engine, HTML Rendering, flutter_math_fork, Widget Testing

- Developed a responsive browser-based tool to upload, validate, inspect, auto-correct, and export PMP question datasets with drag-and-drop CSV upload and automatic delimiter/encoding detection (Gujarati, Hindi, Sanskrit Unicode).
- Engineered a 20-rule AST parser repairing unclosed tags, orphan tables/lists, and encoding artifacts without data loss; delivered bulk Auto-Fix functionality.
- Created reusable HTML rendering supporting rich text, nested lists, Base64 images, and LaTeX equations via **flutter_math_fork**, alongside an interactive multi-device simulator with TRAIN/FLIP cards and side-by-side Cell Inspector.

3. PMP Exam Prep App — Professional Certification Exam Simulator Software Engineer

Tech Stack: Flutter, Dart, GetX, REST APIs, Firebase, Local Storage, AdMob Advertising SDKs, AppLinks Deep Linking

- Enhanced interactive quiz workflows with timed mock tests, question navigation, answer review, flagged questions, explanations, and attempt analytics.
- Engineered referral deep-link handling for cold-start and resumed sessions, guest vs. premium tiered subscription paywalls, and resolved native AdMob lifecycle and controller leaks.

4. Nirvana App — Real Estate Property Discovery & Dynamic Booking System Software Engineer

Tech Stack: Flutter, Dart, REST APIs, PDF Viewer, Chatbot API, Responsive Tablet & Mobile Layouts

- Implemented multi-step property purchase flow covering unit selection, real-time availability states, dynamic pricing, purchaser agreements, down-payment calculation, and payment summaries.
- Integrated in-app PDF agreement viewing, terms bottom sheets, and home-screen AI chatbot API; prepared TestFlight and Android staging builds.
- **5. Reutbyitforme App (Framework & Dependency Upgrade):** Upgraded legacy Flutter codebase from 3.10 to 3.32; modernized dependencies (Firebase Messaging, modern flutter_inappwebview with WebUri, Android Gradle 8+, namespace requirements, and external browser link routing).
- **6. Milos Paddle App (Multi-Court Sports Booking):** Engineered multi-court and time-slot booking functionality with dynamic pricing calculations, availability validation, and payment API integrations.
- **7. Minder App (API Connectivity & Diagnostics):** Conducted deep-dive API diagnostic benchmarking between production and development environments, identifying timeout edge cases and resolving backend integration discrepancies.

DINJAN INFOTECH PVT. LTD. PROJECTS — June 2024 – April 2025

8. The Healthi Indian — Health & Nutrition Platform [Google Play Store] • [Apple App Store]

Tech Stack: Flutter, Dart, GetX, REST APIs, SharedPreferences

- Architected macro-balanced vegetarian and vegan recipe platform; refactored state management from setState to GetX, redesigned UI, integrated REST APIs, and deployed to Google Play and Apple App Store.

9. Agents Thrive — Real Estate Agent Productivity Suite [Apple App Store]

Tech Stack: Flutter, FlutterFlow, DocuSign API, PDF Viewer, Calendar Sync

- Implemented secure biometric authentication, DocuSign contract integration, PDF generation/viewing, calendar synchronization, and production deployment.

10. Radio Spice — Live Radio & Audio Streaming Platform [Google Play Store] • [Apple App Store]

Tech Stack: Flutter, Dart, GetX, Firebase Cloud Messaging, Audio Playback, WebView

- Built live radio streaming application with background playback, YouTube/WhatsApp integration, Firebase push notifications, and bilingual support.
- **11. FinPin (App Store):** Personal finance tracking app built with FlutterFlow & Firebase; implemented timelines (weekly, monthly, yearly), income/expense targets, and interactive charts.
- **12. Inspire4Goal:** Motivational quotes app with GetX, scheduled notifications, dark/light themes, and English/Dutch localization.
- **13. Disporata:** Location-based social platform built with Flutter & FlutterFlow; implemented Google Places profile setup, distance calculation, and nearby user discovery.

WHITE ORANGE SOFTWARE PROJECTS — Jan 2022 – May 2024

14. FineAway — Traffic Fine Resolution & License Renewal [Google Play Store] • [Apple App Store]

Tech Stack: Flutter, Dart, GetX, OCR Text Scanning, REST APIs

- Integrated camera-based OCR text recognition for automated vehicle license data extraction, fine resolution, and payment handling across Android and iOS.

15. Adroit Vantage — LC Banker & 16. Wealth Management 2.0 [Apple App Store]

Tech Stack: Flutter, GetX, Interactive Graphs, Calendar Events, REST APIs, Hive DB

- Engineered financial portfolio interfaces for high-net-worth clients with responsive equity/bond charting, calendar events, and real-time chat.

- **17. Muvr On-Demand Logistics (Customer App • Driver App):** Developed booking workflows, dynamic dispatch, and real-time tracking across customer and driver applications.
- **18. AV Social:** Social networking app with live feed, polls, media sharing, and Hive DB.
- **19. Mdsty:** German market e-commerce application with MVC architecture, local language support, product catalog, and payment gateway integration.

EDUCATION & HONORS

Master of Computer Applications (MCA) — CGPA: 7.61 (Distinction)
Sarvajanik College of Engineering & Technology, GTU • Surat, India (Dec 2020 – May 2022)

Bachelor of Computer Applications (BCA) — CGPA: 7.39 (Distinction)
Vivekanand College for Advance Computer & Info. Science, VNSGU • Surat, India (Jun 2017 – Mar 2020)
