Dhruvi Patel

Sr. Software Engineer • Sr. Flutter Developer • Mobile Application Developer

Surat, Gujarat, India | +91 9925589405 | dhruvi39604@gmail.com | linkedin.com/in/dhruvi-patel-flutter | github.com/dhruvipatel

PROFESSIONAL SUMMARY

Senior Software Engineer & Senior Flutter Developer with **4+ years** of professional experience architecting, engineering, and publishing high-performance cross-platform mobile (iOS, Android) and web applications. Recognized with the **Code Craft Excellence Award (2025)** for clean modular architecture, technical leadership, and engineering craftsmanship. Proven track record leading products from concept to scale, managing **50+ production releases**, designing low-latency real-time dispatch systems via **AWS IoT Core (MQTT)** and **Firebase Cloud Messaging**, engineering resilient networking layers with thread-safe locks, and authoring automated testing suites (Unit, Widget, Integration) ensuring zero regression.

TECHNICAL COMPETENCIES

Languages & Frameworks:	Flutter (Mobile & Web), Dart, FlutterFlow, Java, Kotlin, Python, HTML5, CSS3, JavaScript
Architecture & State:	Clean & Modular Architecture, GetX State Management, BLoC Pattern, Repository Pattern, Dependency Injection
Cloud & Real-Time:	AWS IoT Core (MQTT over WebSockets), Firebase (FCM, Firestore, Auth, Crashlytics, Remote Config, Performance), RESTful APIs, Dio, JWT Security
Storage & Database:	Hive DB, Flutter Secure Storage, Cloud Firestore, SQLite, SharedPreferences
Testing & Quality:	Mocktail, Unit Testing, Widget Testing, Flutter Integration Test, DevTools Profiling, Code Analysis
Tooling & Deployment:	Git, GitHub Actions, Google Play Console, Apple App Store Connect, Android Studio, Xcode, VS Code, Postman
APIs & Integrations:	Google Places API, Cloudflare Turnstile, In-App Review, In-App Purchases (StoreKit / RevenueCat), CustomPainter, flutter_math_fork

PROFESSIONAL EXPERIENCE

Logix Built Infotech • Surat, India

May 2025 – Present

Sr. Software Engineer – Flutter Developer

🏆 **Code Craft Excellence Award (2025)**

Technologies: Flutter, Dart, GetX, AWS IoT Core (MQTT), FCM, Dio, JWT, Python, Firebase Crashlytics & Analytics, Mocktail

- **Engineering Leadership & Architecture:** Architected dual-sided on-demand mobile applications and web QA platforms from scratch using Flutter, Dart, and GetX under a strict Clean Modular Architecture.
- **Real-Time Dispatch Engine:** Built low-latency bidirectional dispatch infrastructure using **AWS IoT Core (MQTT over Secure WebSockets)** and **Firebase Cloud Messaging (FCM)** with background reconnection logic and custom sound/vibration alerts.
- **Resilient Network Layer:** Engineered Dio HTTP client with smart exponential backoff retries and a thread-safe **Single-Flight Lock (Completer)** that completely resolved token-refresh race conditions in concurrent API requests.
- **Release & Production Lifecycle:** Managed **50+ production releases** across Google Play and Apple App Store, orchestrating zero-downtime updates with Google Play In-App Updates (Immediate & Flexible) and Firebase Remote Config.
- **Web QA Automation Suite:** Engineered a browser-based dataset validation suite in Flutter Web with a 20-rule AST parser, auto-remediating malformed HTML, broken table/list hierarchies, and encoding artifacts.
- **Deep Linking & User Engagement:** Implemented AppLinks deep-linking with auth-gated intent preservation for one-click external booking acceptance, alongside an engagement-gated In-App Review triage system.
- **Automated Testing:** Authored comprehensive Unit, Widget, and Integration test suites using **Mocktail** and Flutter Integration Test, achieving high coverage and eliminating production regressions.

DinJan Infotech Private Limited • Surat, India

June 2024 – April 2025

Flutter Developer

Full-time

Technologies: Flutter, FlutterFlow, Dart, Custom Widgets, Android, iOS, REST APIs, Git

- **Cross-Platform Product Delivery:** Designed and implemented pixel-perfect, responsive user interfaces for Android and iOS using Flutter and FlutterFlow, authoring custom interactive widgets for complex UI workflows.
- **API & State Management:** Integrated secure RESTful API communication, structured centralized state handling, and engineered reliable offline caching mechanisms.
- **Performance Optimization & Maintenance:** Conducted routine memory profiling, resolved layout jank, updated deprecated dependencies, and ensured continuous platform compatibility.
- **Team Mentorship:** Mentored junior mobile developers on Dart conventions, effective widget tree decomposition, and collaborative Git branching workflows.

PROFESSIONAL EXPERIENCE (CONTINUED)

White Orange Software • Surat, India — June 2022 – May 2024

Mobile App Developer — *Full-time*

Technologies: Flutter, Dart, REST APIs, Firebase, Android SDK, iOS Xcode, Git

- **Production App Development:** Developed and shipped multiple cross-platform mobile apps for Android and iOS, implementing clean UI components and seamless navigation flows.
- **System Enhancement:** Analyzed complex software bugs, optimized list rendering performance, and refactored legacy modules to support new client requirements.
- **Agile Collaboration:** Partnered closely with backend engineers, UI/UX designers, and QA testers in Agile sprints to meet release deadlines with high software reliability.

White Orange Software • Surat, India — January 2022 – May 2022

Intern, Android Developer — *Internship*

Technologies: Android Studio, Java, Kotlin, Firebase, Third-Party SDKs, Profiling

- **Enterprise HR Application:** Built an Android mobile application for industry HR departments to manage employee profiles, salary records, attendance, and real-time messaging between HR and employees.
- **Native Integration:** Integrated Firebase Realtime Database and third-party communication SDKs; performed manual and automated test execution across diverse physical Android devices.

FEATURED PRODUCTION PROJECTS

Pandit Near Me • Dual-Sided On-Demand Marketplace (Android & iOS) — 50+ App Releases

Lead / Mobile Software Engineer (Built from Scratch) — *May 2025 – Present*

Stack: Flutter, Dart, GetX, Dio, AWS IoT Core (MQTT), FCM, Crashlytics, Cloudflare Turnstile, Google Places, Hive, Mocktail

- Architected and developed a dual-sided marketplace app from scratch for users, Pandits, and Astrologers with dynamic puja bookings, wallet discounts, multilingual support (EN, HI, GU), and Aadhaar KYC verification.
- Engineered real-time dispatch via **AWS IoT Core (MQTT)** and FCM with custom sound/vibration alerts, AppLinks deep-linking with auth-gated intent preservation, and Google Play In-App Updates.
- Built Kundali and Kundali Matching engine featuring dynamic planetary data, custom geometric horoscope charts rendered via **CustomPainter**, Gun Milan scores, and PDF generation.

PMP CSV Validator & Preview Tool • Dataset QA & Mobile Simulation Suite — Flutter Web

Lead Flutter Web Engineer — *Platform: Web*

Stack: Flutter Web, Dart, Python, AST Engine, HTML5 BroadcastChannel, flutter_math_fork, Widget Testing

- Developed a responsive browser-based dataset validation and auto-repair suite automating QA for multi-thousand question exam banks with full Unicode support (Gujarati, Hindi, Sanskrit, special characters).
- Engineered a 20-rule AST parser repairing unclosed tags, orphan tables/lists, and encoding artifacts without data loss; implemented an interactive multi-device mobile simulator with TRAIN/FLIP cards and side-by-side Cell Inspector.

Additional Flagship & Commercial Applications — Published Apps

- **PMP Exam Prep App (EdTech):** Comprehensive certification exam simulator with interactive quizzes, timed mock tests, question bookmarking, answer explanations, attempt analytics, AdMob ads, and referral deep linking.
- **The Healthi Indian (Health & Nutrition):** High-traffic lifestyle app published on **Google Play & App Store** featuring personalized nutrition logs, recipe discovery, meal planning, and in-app subscription paywalls.
- **Enterprise & Client Apps:** Shipped **Lighthouse Canton (LC Banker)** (private wealth management for high-net-worth clients), **Radio Spice** (live streaming audio app), **Fine Away** (traffic fine resolution), and **AV Social**.

EDUCATION

Master of Computer Applications (MCA)
Sarvajanik College of Engineering & Technology (G.T.U.)
Dec 2020 – May 2022 • Surat, India
Distinction (CGPA: 7.61)

Bachelor of Computer Applications (BCA)
Vivekanand College for Advance Computer & Info. Science (V.N.S.G.U.)
Jun 2017 – Mar 2020 • Surat, India
Distinction (CGPA: 7.39)

HONORS & AWARDS

🏆 **Code Craft Excellence Award (2025)** – Logixbuilt Infotech: Awarded in recognition of exceptional code craftsmanship, modular architecture design, and outstanding engineering delivery across cross-platform mobile and web products.
